

IN THE CLAIMS

The following listing of claims will replace all prior versions and listings of claims in the present application.

1–43 (cancelled).

44 (currently amended). A method for treating or preventing a neoplasia disorder in a mammal in need of such treatment or prevention, which method comprises administering to the mammal a therapeutically effective amount of a combination of radiation therapy, celecoxib, and gemcitabine, wherein the neoplasia disorder is pancreatic cancer.

45–101 (cancelled).

102 (original). The method of Claim 44 wherein the combination is administered in a sequential manner.

103 (original). The method of Claim 44 wherein the combination is administered in a substantially simultaneous manner.

104–119 (cancelled).

120 (currently amended). A method to treat a neoplasia disorder in a mammal in need of such treatment, the method comprising administering to the mammal a therapeutically-effective amount of a combination of radiation therapy, celecoxib, and gemcitabine, wherein the neoplasia disorder is pancreatic cancer.

121 (currently amended). A method to prevent a neoplasia disorder in a mammal in need of such treatment, the method comprising administering to the mammal a therapeutically-effective amount of a combination of radiation therapy, celecoxib, and gemcitabine, wherein the neoplasia disorder is pancreatic cancer.
